Subject: Important Update Regarding B&B Socket Products

Dear Valued Customer,

We are writing to share an important update about B&B Socket Products and what it means for your continued partnership with our team. **Effective September 1, 2026**, B&B Socket Products will be fully consolidated into **Sierra Pacific Supply Co. (SPSC)**, one of the West Coast's most established specialty fastener and hardware distributors.

Both B&B Socket Products and Sierra Pacific Supply Co. are owned by **COI Holdings (COI)**, a California-based holding company. B&B was acquired by COI in 2017, and Sierra Pacific Supply Co. joined the COI portfolio in 2021. With both companies operating under the same ownership and serving many of the same markets, this consolidation brings together complementary product lines, shared expertise, and a combined team under a single, stronger platform. The result is a more capable organization, better positioned to serve you with greater resources, deeper inventory, and expanded capabilities.

About Sierra Pacific Supply Co.

Sierra Pacific Supply Co. has been a trusted name in specialty distribution since 1954, serving the aerospace, defense, electronics, and industrial markets for over 70 years. Located in Carson, CA just 18 miles from B&B's current location, SPSC is a full-service distributor of specialty rivets, fasteners, sockets, and precision hardware, including mil-spec and aerospace-grade components. We support our customers with custom sourcing, kitting, and stocking programs, and the ability to source critical, hard-to-find components across a wide range of industries. SPSC holds AS9100 Rev D and ISO 9001:2015 certifications and is ITAR registered with the U.S. Department of State. We are an approved supplier for major organizations such as Boeing, Gulfstream, Pratt & Whitney, and the Department of Defense (DLA).

What This Means for You

Nothing about the service, expertise, or people you rely on is going away. Lori Winton will remain your sales contact and will continue to serve your account just as she always has. Your product lines, pricing, service levels, open orders, and scheduled releases will all carry over without interruption, and your complete order history and account records will be preserved and accessible from day one.

What does change is the legal entity you are transacting with. Beginning **September 1, 2026**, all new purchase orders, invoices, and payments should be directed to **Sierra Pacific Supply Co.** at our Carson, CA location. Please also note that we will have a brief service pause the week of August 31 through September 4 as we complete the physical move of our inventory and finalize our systems cutover. We encourage you to plan any time-sensitive orders before August 28.

Transition Timeline

We are committed to making this transition seamless. Below is our planned schedule:

Milestone	Details
Now through August 28, 2026	Business as usual from our Santa Fe Springs, CA location. Friday, August 28 is the last day that B&B orders will ship from this location.
August 31 – September 4, 2026	Brief service pause for physical inventory relocation and systems cutover. No shipments will be processed during this week.
Go-Live: Tuesday, September 8, 2026	All orders begin shipping from Sierra Pacific Supply Co. at 129 Selandia Lane, Carson, CA 90746.
Post Go-Live	Your account continues without interruption. Lori Winton remains your sales contact.

Action Requested: Supplier / Vendor Qualification

Because we know that many of our customers are required to maintain approved vendor lists and conduct periodic supplier qualifications, our goal is to make this as straightforward as possible. Enclosed with this letter is a **Sierra Pacific Supply Co. Customer and Vendor Reference Sheet** containing all information your accounts payable, purchasing, and quality teams should need, including our remittance address, Federal Tax ID, CAGE Code, ITAR registration status, key contacts, and quality certifications.

Please forward the reference sheet to your relevant internal teams and initiate any vendor set-up or approved supplier updates at your earliest convenience. If your organization requires us to complete a supplier qualification survey or questionnaire, please send it to **Keith Thomas II, Quality & Compliance Coordinator**, at Keith@sierrapacificsupply.com.

In Closing

We are extremely proud of the customer relationships, product expertise, and reputation for reliability that B&B Socket Products has built over the years. Bringing those strengths into Sierra Pacific Supply Co. makes both businesses stronger, and we are confident you will feel that difference in the service and capabilities available to you. We sincerely appreciate the trust you have placed in B&B Socket, and we look forward to continuing that relationship under the Sierra Pacific Supply Co. name.

Lori will be available during the coming weeks to answer any questions, address any account-specific needs, and walk through next steps together. Please also expect a follow-up letter from us in August with any final details in advance of our September 8 go-live date.

Thank you for your continued partnership.

Sincerely,

Dustin Carreon
